1615 Melrose Park Ct, Apt 2022, Urbana, IL 61801, US

Education

PhD Candidate | ***Nuclear, Plasma, and Radiological Engineering*** Jan 2020 – Present
University of Illinois at Urbana-Champaign (UIUC) Urbana, USA
- Cumulative GPA: 4.0 / 4.0

Master of Science | ***Nuclear, Plasma, and Radiological Engineering*** Aug 2018 – Dec 2019
University of Illinois at Urbana-Champaign (UIUC) Urbana, USA
- Cumulative GPA: 4.0 / 4.0

Bachelor of Engineering | ***Nuclear Engineering and Technology*** Sept 2014 – June 2018
University of Science and Technology of China (USTC) Hefei, China
- Cumulative GPA: 3.89 / 4.3

Research Experience

Multi-Mode Imaging for TRISO-fueled Pebble Identification Aug 2020 - Present
Graduate Research Assistant, Advisor: Prof. Angela Di Fulvio, UIUC Urbana, USA
- Developed SCALE/MCNP models of advanced nuclear reactors and performed criticality/burnup calculation.
- Designed a boron-coated straw-based neutron multiplicity counter in MNCP to perform non-destruction assay of fuel pebbles.
- Implemented an accelerated Monte-Carlo algorithm in C++ to simulate X-ray images of a pebble generated by an industrial CT scanner.
- Developed image reconstruction, image segmentation, and fuel pebble identification algorithms in python.
- Contributed to the writing of the awarded Phase II STTR DOE grant.

Quantitative Image Reconstruction in Passive Gamma Emission Tomography (PGET) Aug 2019 – Sept 2020
Graduate Research Assistant, Advisor: Prof. Angela Di Fulvio, Prof. Yoann Altmann, UIUC Urbana, USA
- Developed a linear forward model in C++ to characterize PGET system response to spent nuclear fuel assemblies in water cools.
- Implemented an accelerated Monte Carlo algorithm in C++ to perform gamma-ray down-scattering correction.
- Developed a full set of software in python to reconstruct cross-sectional images of inspected fuel assemblies, identify missing fuel pins, and estimate fuel pin activities.

Active Interrogation Using a DD Neutron Generator May 2019 – May 2020
Graduate Research Assistant, Advisor: Prof. Angela Di Fulvio, UIUC Urbana, USA
- Implemented a shift-register algorithm in python to calculate the coincidence neutron count rate.
- Demonstrated the possibility of using a DD generator as a neutron active interrogation source based on the strong correlation between the time-dependent neutron count rate signature and uranium mass.

Positron Annihilation Lifetime Spectroscopy (PALS) Jan 2019 – May 2019
Graduate Research Assistant, Advisor: Prof. Angela Di Fulvio, UIUC Urbana, USA
- Developed and optimized a PALS experimental setup using organic scintillators and fast digitizers.
- Implemented an interpolation-based constant-fraction discrimination (CFD) timing algorithm in C++ to determine the pulse arrival time.

General-Purpose Pulse-Processing Program Sept 2018 – Present
Graduate Research Assistant, Advisor: Prof. Angela Di Fulvio, UIUC Urbana, USA
- Developed a fast and general-purpose pulse-processing program based on the CERN ROOT framework in C++.
- Pulse-processing capabilities include zero suppression, pile-up rejection, pulse shape discrimination (PSD), CFD timing, coincidence selection, energy calibration, etc.
- Visualization capabilities include waveform plot, pulse height distribution/pulse integral distribution plot, PSD plot, time-of-flight plot, etc.

Implementation of Key Algorithms in Gamma Spectrum Analysis Software July 2017 – Mar 2018
Undergraduate Research Assistant, Advisor: Dr. Jia Li, USTC Hefei, China
- Implemented pulse smoothing, peak finding and background subtraction algorithms in C++.
- Implemented energy calibration algorithm in C++.

Presentations at International Conferences

1. Demonstration of gamma ray insensitivity of boron coated straw-based neutron multiplicity counter (oral). Vienna, Austria, May 2023. INMM&ESARDA 2023 Joint Annual Meeting

2. Boron-coated straw-based neutron multiplicity counter for emerging fuel cycles (oral). Milano, Italy, November 2022. 2022 IEEE Nuclear Science Symposium, Medical Imaging Conference and Room Temperature Semiconductor Detector Conference

3. Boron coated straw-based neutron multiplicity counter for neutron interrogation of triso fueled pebbles (oral). Virtual Conference, July 2022. INMM 63rd Annual Meeting

4. Algorithms for TRISO Fuel Identification Based on X-ray CT (oral). Anaheim, CA, USA, June 2022. 2022 ANS Annual Meeting

5. Enabling psd-capability for a high-density channel imager (oral). Virtual Conference, December 2021. 2021 IEEE Nuclear Science Symposium and Medical Imaging Conference

6. Multi-mode imaging for triso-fueled pebble identification (oral). Virtual Conference, April 2021. ANS Student Conference 2021

7. Comparison of image reconstruction methods for simulated passive gamma emission tomography (oral). Virtual Conference, November 2020. 2020 IEEE Nuclear Science Symposium and Medical Imaging Conference

8. Computational methods for pin identification in passive gamma emmission tomography (oral). Virtual Conference, July 2020. INMM 61st Annual Meeting

9. Positron annihilation lifetime spectroscopy using fast scintillators and digital electronics (poster). Manchester, UK, November 2019. 2019 IEEE Nuclear Science Symposium and Medical Imaging Conference

Teaching and Mentoring

Seminars
UIUC — Urbana, USA

- Course: NPRE451 NPRE Laboratory, Fall 2022
- Course: NPRE452 Advanced Radiological Laboratory, Spring 2022, Fall 2022

Outreach Activities — Mar 2020
UIUC — Urbana, USA

- Coordinated lab tour for the Academic Redshirt in Science and Engineering (ARISE).

Mentor — Sept 2018 – Present
UIUC — Urbana, USA

- Jacob Fritchie, Master student.
- Satwik Pani, Undergraduate student.
- Muzammil Siddiqui, Undergraduate student.
- Noah Rebei, High School Summer Research Program, University Laboratory High School.

Undergraduate Teaching Assistant — Sept 2017 – Jan 2018
USTC — Hefei, China

- Course: Physics, Subject: Quantum Mechanics B.

Skills

Programming: C/C++, OpenMP/MPI, Python (NumPy, SciPy, Matplotlib), Bash, Java
Document Creation: LaTeX, Markdown, Microsoft Office Suite
Software: MCNP, SCALE, MATLAB, Mathematica, ROOT, Git, CMake/Make, SOLIDWORKS, OrCAD Capture and PCB Editor, Origin, Vivado

Honors and Awards

J.D. Williams Student Paper Award, Second Place — July 2022
Institute of Nuclear Materials Management 63rd Annual Meeting

ACDIS Summer 2022 Fellowship — May 2022
The Program in Arms Control & Domestic and International Security (ACDIS), UIUC

Fellow of Exotic Beam Summer School — June 2019
Oak Ridge National Laboratory

Outstanding Teaching Assistant — Mar 2018
USTC

Outstanding Student Scholarship — May 2017
USTC

Institute of Modern Physics, Chinese Academy of Sciences Scholarship — Sept. 2017
USTC

Outstanding Student Scholarship — May 2016
USTC

Institute of Modern Physics, Chinese Academy of Sciences Scholarship — Sept. 2015
USTC

Outstanding Freshman Scholarship — Sept. 2014
USTC

Professional Societies

- Student member of Institute of Electrical and Electronics Engineers (IEEE)
- Student member of IEEE Nuclear and Plasma Sciences Society
- Secretary, Institute of Nuclear Materials Management UIUC Student Chapter
- Student member of Institute of Nuclear Materials Management
- Student member of American Nuclear Society
