303 W Green St, Apt E302, Champaign, IL 61820, USA

EDUCATION

PhD Student <i>Nuclear, Plasma, and Radiological Engineering</i> University of Illinois at Urbana-Champaign (UIUC) <ul style="list-style-type: none">Cumulative GPA: 4.0 / 4.0	Jan 2020 – Present Urbana, USA
Master of Science <i>Nuclear, Plasma, and Radiological Engineering</i> University of Illinois at Urbana-Champaign (UIUC) <ul style="list-style-type: none">Cumulative GPA: 4.0 / 4.0	Aug 2018 – Dec 2019 Urbana, USA
Bachelor of Engineering <i>Nuclear Engineering and Technology</i> University of Science and Technology of China (USTC) <ul style="list-style-type: none">Cumulative GPA: 3.89 / 4.3	Sept 2014 – June 2018 Hefei, China

RESEARCH INTEREST

- Development of non-destructive assay methods of special material for the characterization of tri-structural isotropic particle (TRISO) fuel for pebble bed reactors.
- Development of single-volume scatter camera with SiPM scintillator readout.
- Radiation detector signal processing algorithms with a focus on accelerated Monte Carlo implementation and iterative linear inverse solver for image reconstruction.
- Application of advanced radiation detection techniques, such as positron lifetime spectroscopy.

RESEARCH EXPERIENCE

Multi-Mode Imaging for TRISO-fueled Pebble Identification UIUC <ul style="list-style-type: none">Designed a neutron multiplicity counter to perform non-destruction assay of fuel pebbles.Implemented an accelerated Monte-Carlo algorithm to simulate X-ray images of a pebble generated by an industrial CT scanner.Developed image reconstruction, image segmentation, and fuel pebble identification algorithms.Contributed to the writing of the awarded Phase II STTR DOE grant.	Aug 2020 - Present Urbana, USA
Quantitative Image Reconstruction in Passive Gamma Emission Tomography UIUC <ul style="list-style-type: none">Developed a linear forward model to characterize the imaging system response.Implemented an accelerated Monte Carlo algorithm to perform scattering correction.Developed a full set of software to reconstruct cross-sectional images of inspected fuel assemblies, identify missing fuel pins, and estimate fuel pin activities.	Aug 2019 – Sept 2020 Urbana, USA
Active Interrogation Using a DD Neutron Generator UIUC <ul style="list-style-type: none">Implemented a shift-register algorithm to calculate the coincidence neutron count rate.Demonstrated the possibility of using a DD generator as a neutron active interrogation source based on the strong correlation between the time-dependent neutron count rate signature and uranium mass.	May 2019 – May 2020 Urbana, USA
Positron Annihilation Lifetime Spectroscopy (PALS) UIUC <ul style="list-style-type: none">Developed and optimized a PALS experimental setup using organic scintillators and fast digitizers.Implemented an interpolation-based constant-fraction discrimination (CFD) timing algorithm to determine the pulse arrival time.	Jan 2019 – May 2019 Urbana, USA
General-Purpose Pulse-Processing Program UIUC	Sept 2018 – Present Urbana, USA

- Developed a fast and general-purpose pulse-processing program based on the CERN ROOT framework.

Implementation of Key Algorithms in Gamma Spectrum Analysis Software

Jul 2017 – Mar 2018

USTC

Hefei, China

- Implemented pulse smoothing, peak finding and background subtraction algorithms in C++.
- Implemented energy calibration algorithm in C++.

PRESENTATIONS AT INTERNATIONAL CONFERENCES

1. Boron coated straw-based neutron multiplicity counter for neutron interrogation of triso fueled pebbles (oral). Virtual Conference, July 2022. INMM 63rd Annual Meeting
2. Algorithms for TRISO Fuel Identification Based on X-ray CT (oral). Anaheim, CA, USA, June 2022. 2022 ANS Annual Meeting
3. Enabling psd-capability for a high-density channel imager (oral). Virtual Conference, December 2021. 2021 IEEE Nuclear Science Symposium and Medical Imaging Conference
4. Multi-mode imaging for triso-fueled pebble identification (oral). Virtual Conference, April 2021. ANS Student Conference 2021
5. Comparison of image reconstruction methods for simulated passive gamma emission tomography (oral). Virtual Conference, November 2020. 2020 IEEE Nuclear Science Symposium and Medical Imaging Conference
6. Computational methods for pin identification in passive gamma emission tomography (oral). Virtual Conference, July 2020. INMM 61st Annual Meeting
7. Positron annihilation lifetime spectroscopy using fast scintillators and digital electronics (poster). Manchester, UK, November 2019. 2019 IEEE Nuclear Science Symposium and Medical Imaging Conference

APPOINTMENTS

Graduate Research Assistant Neutron Measurement Laboratory	Sept 2018 – Present Urbana, USA
--	------------------------------------

TEACHING AND MENTORING

Outreach Activities UIUC	Mar 2020 Urbana, USA
------------------------------------	-------------------------

- Coordinated lab tour for the Academic Redshirt in Science and Engineering (ARISE).

Mentor UIUC	Sept 2018 – Present Urbana, USA
-----------------------	------------------------------------

- Jacob Fritchie, Undergraduate student.
- Satwik Pani, Undergraduate student.
- Muzammil Siddiqui, Undergraduate student.
- Noah Rebei, High school student, University Laboratory High School.

Undergraduate Teaching Assistant USTC	Sept 2017 – Jan 2018 Hefei, China
---	--------------------------------------

- Course: Physics, Subject: Quantum Mechanics B.

SKILLS

Programming: C/C++, OpenMP/MPI, Python (NumPy, SciPy, Matplotlib), Bash, Java

Document Creation: \LaTeX , Markdown, Microsoft Office Suite

Software: MCNP, MATLAB, Mathematica, ROOT, Git, CMake/Make, SOLIDWORKS, OrCAD Capture and PCB Editor, Origin, Vivado

HONORS AND AWARDS

Fellow of Exotic Beam Summer School Oak Ridge National Laboratory	Jun 2019
Outstanding Teaching Assistant USTC	Mar 2018
Outstanding Student Scholarship USTC	May 2017
Institute of Modern Physics, Chinese Academy of Sciences Scholarship USTC	Sept. 2017
Outstanding Student Scholarship USTC	May 2016
Institute of Modern Physics, Chinese Academy of Sciences Scholarship USTC	Sept. 2015
Outstanding Freshman Scholarship USTC	Sept. 2014

PROFESSIONAL SOCIETIES

- Student member of Institute of Nuclear Materials Management
- Student member of American Nuclear Society
